## Education

### Osmania University

Bachelor of Engineering in Information Technology | CGPA:8.1

2019 – 2023

Hyderabad, India

## Relevant Coursework

- Design & Analysis of Algorithm
- Operating Systems
- Data Structures
- Database Management System
- Full Stack Development
- Object Oriented Design
- Web Development
- AI & Machine Learning

## Experience

### Kodnest

Full Stack Developer

June 2023 – Feb 2024

Bengaluru, Karnataka

- Spearheaded the design and development of modern and responsive user interfaces for web applications, ensuring optimal user experience across devices and browsers. Collaborated with cross-functional teams, including UX designers and back-end developers, to translate design concepts into functional and visually appealing interfaces. Included an in-depth exploration of Competitive programming in Java & Python, Web Development, SQL, Manual & Automation Testing.

### Rejolt

Web Developer Intern

May 2022 – Jun 2022

Hyderabad, Telangana

- Created visually appealing and user-friendly websites utilizing HTML, CSS, and JavaScript, ensuring seamless functionality across various devices and screen sizes. Worked closely with UI/UX designers, back-end developers, and project managers to implement website features, troubleshoot issues, and meet project milestones.
- Leveraged front-end frameworks to enhance interactivity and user experience, contributing to the dynamic and engaging nature of the web applications.
- Demonstrated proficiency in identifying and resolving bugs and technical issues, optimizing website performance and functionality.
- Incorporated third-party APIs (Application Programming Interfaces) to integrate additional features and services, expanding the capabilities of web applications.
- Engaged in code reviews to ensure adherence to best practices and coding standards, contributing to a collaborative and quality-focused development environment. Additionally, actively participated in continuous integration processes for seamless deployment.

### Crio Winter of Doing

AWS Externship

Jan 2021 – Mar 2021

Remote

- I worked on Task Scheduler and Orchestrator Library which helps the user to create an AWS Lambda function & schedule it.
- The Orchestrator can schedule N tasks one after the another based on some condition check between tasks.
- Impact : The Scheduler is capable of scheduling 50k to 100k lambda functions.
- Technologies used : ReactJS, ExpressJS, AWS Lambda, Docker, Serverless.

### Girls Who Code

Software Engineer

Sep 2019 – Mar 2024

Remote

- Full-stack web development using relevant technologies.
- Mentorship and guidance for aspiring female software engineers.
- Collaborative problem-solving in cross-functional teams to develop innovative solutions.
- Advocacy for diversity and inclusion in technology through community engagement and events.
- Passionate about leveraging technology to empower women and bridge the gender gap in tech.

### Code.Squad Labs

Software Engineer

Sep 2016 – Present

Bengaluru, Karnataka

- Spearheaded the design and development of modern and responsive user interfaces for web applications, ensuring optimal user experience across devices and browsers. Collaborated with cross-functional teams, including UX designers and back-end developers, to translate design concepts into functional and visually appealing interfaces.
- Included an in-depth exploration of Competitive programming in Java & Python, Web Development, SQL, Manual & Automation Testing.

## Technical Skills

---

**Languages:** Python, Java, C, HTML, CSS, JavaScript, MongoDB, Express JS, React JS, Node JS, TypeScript, PHP, MySQL, Django, Linux

**Developer Tools:** VS Code, Eclipse, Google Cloud Platform, Android Studio, Microsoft Excel, Canva, Figma, Github, Vercel, Netlify

**Technologies/Frameworks:** Linux, Jenkins, Selenium, GitHub, JUnit, WordPress

**Familiar:** AWS, Docker, Kubernetes, AI, Machine Learning

## Projects

---

-  **CodeBlitz** | *Full-Stack-HTML, CSS, JavaScript, ReactJs, TypeScript* **2019**
- CodeBlitz is my own version of CodePen, built for coders who want a straightforward and efficient way to write and test HTML, CSS, and JavaScript. Using React and TypeScript, I made sure CodeBlitz is easy to use and gets the job done.
  - Key Features :
    - Live Preview: See your code changes in real time.
    - Custom Editors: Separate editors for HTML, CSS, and JavaScript with clear syntax and numbering.
    - Auto-Save: Your code is saved in local storage, so you won't lose your work.
    - Flexible Layout: Easily expand or collapse code sections as you work.
-  **GYM** | *Full-Stack-Frontend, Backend* **2020**
- Responsive Gym Website Design Using HTML CSS & JavaScript.
  - Contains animations when scrolling.
  - Includes a form to calculate body mass index.
  - Includes a form to send emails.
  - Developed first with the Mobile First methodology, then for desktop.
  - Compatible with all mobile devices and with a beautiful and pleasant user interface.
-  **Digital Agency** | *HTML, CSS, JavaScript, React JS* **2021**
- As part of my passion for web development and creating engaging digital experiences, I undertook a project to design and develop a comprehensive website for a fictional digital agency.
  - Leveraging my skills in HTML, CSS, JavaScript, and other web development languages, I crafted a dynamic and visually appealing online platform that showcases the agency's services, portfolio, and expertise.
-  **Flipkart Clone** | *Full-Stack-FrontEnd, Backend* **2022**
- Full-Stack Flipkart with Admin Dashboard & Paytm Payment Gateway.
  - Frontend: React, React Router, Redux, Tailwind CSS, Material UI, Chart.js
  - Backend: Node.js, Express.js, MongoDB
  - Payment Gateway: Paytm
-  **Docapp Bot** | *Full-Stack-HTML, CSS, JavaScript, ReactJs, Redux, NodeJS, MongoDB* **2023**
- MERN Stack Doctor Appointment Booking Application using React, Redux Toolkit, AntD, Node, MongoDB
  - Key Features :
    - Separate User Interfaces for Users, Admins, Doctors
    - JWT Authentication and Password Hashing
    - Ant Design Library for UI Components
    - Redux Toolkit
    - Notifications Functionality for Users, Admin, and Doctors
    - Manage Users, Doctors, and Appointments from the Admin panel
-  **ResumeGPT** | *Full-Stack-HTML, CSS, JavaScript, ReactJs, TypeScript, Redux, NodeJS, Pdf.js, React-pdf* **2024**
- ResumeGPT is a powerful open-source resume builder and resume parser.
  - The goal of ResumeGPT is to provide everyone with free access to a modern professional resume design and enable anyone to apply for jobs with confidence.
